3- Bedroom townhouse located close to the beach in the area just to the west of Puerto Banus.

The townhouse in this development in particular are something quite and unique to the area.

For a start, they're big - more like the size of a villa than a townhouse - and they come with a private pool area surrounded by a broad tiled sun terrace.

The Bahia de Banus development is the very epitome of luxury living within an easy 7-walk of the marina and the centre of Puerto Banus.

It's also virtually next door to the exclusive 5-star Guadalpin Banus Hotel as well as the Mistral Beach, Sala Beach and Ocean Club beachclubs.

With a distinctive Asian influence in both its architecture and exotic gardens – Bahia de Banus offers owners numerous on-site facilities which include 2 outdoor swimming pools, an ornamental pond with a Thai-style seating area, a jacuzzi and a fully-equipped gymnasium.
